82% of companies saved money on their last cloud adoption

72% of companies already using cloud hosting solutions are planning on moving additional resources to the cloud

58% agree that being on the cloud has given them better control and scalability of their hosted environments

42% of Small Businesses reduced their Infrastructure work-load

37% of companies using cloud hosted infrastructure to run their IT operations

16% of companies using cloud hosting to resell hosted services.

Public Cloud

Shared • Open
• Pay as you grow

Easily deployed Infrastructure on a shared cloud environment.

Quickly or automatically scale your Infrastructure according to workload.

Pay as you grow for unlimited computing resource, storage and bandwidth.

Private Cloud

Dedicated • Secure
• Fixed Cost

A secure virtual data center on your own dedicated Infrastructure.

Servers and storage can be added and scaled according to your needs.

Planned resource capacity with fixed costs and unmetered bandwidth.

Hybrid Cloud

Pick from the best of both worlds

A mix of dedicated infrastructure and public cloud Infrastructure.

Cherry-pick the best environments for your different services.

Keep data secure, and resources with dedicated Infrastructure.
