Managed Security

Our managed firewall solution ensures your infrastructure is guarded against intentional, hostile intrusions. Protecting your data information is a high priority, and protecting the integrity of your network is critical in maintaining a secure environment.

Basic Firewall
- ACL Based
- Shared Environment

Advanced Firewall
- IDS / IPS
- UTM
- VPN
- Dedicated Environment

Managed Backup

The loss of data can be remarkably difficult for a business. It can quickly have a bad impact on sales, customer service and of course the business' reputation. Protecting your data from unexpected disasters is crucial.

Fully managed, powerful, dependable, and reliable data protection – Reducing IT staff burden and training requirements.

- Personal Backup (Up to 5 Devices)
- Business Backup (Up to 25 Devices)
- Enterprise Backup (26 Devices and above)

Managed Monitoring

Full detailed comprehensive view of every aspect of your network and IT environment. From Port Monitoring to Application and Database Monitoring. Without real-time monitoring you may lose both money and time essential to your business tracking down failures, security breaches, and inefficiencies in your platform.

SNMP Based
- Disk
- Memory
- CPU

Port Based
- TCP
- UDP
- IP

Managed Smart Hands

Volico's Smart Hands data center services ensures there's someone on hand to respond immediately to your data needs, 24 hours a day, 7 days a week.

Benefits

- Instant response to any problems which crop up – minimising risk and downtime to your business

- Worry Free about day-to-day maintenance, such as tape changes and back-ups so your engineers and IT staff are free to focus on value and innovation.
