MANAGED FIREWALL SERVICE

Having poorly configured firewall is like not having a firewall at all.

Our managed firewall solution ensures your infrastructure is guarded against intentional, hostile intrusions. Protecting your data information is a high priority, and protecting the integrity of your network is critical to maintaining a secure environment.

Features & Benefits

COMPLIANCE
Help you meet and maintain compliance requirements with PCI, HIPAA, and other regulations.

SCALABILITY
We provide scalable managed firewall solutions that fit small, medium, and enterprise businesses.

MONITORING
Volico monitors your firewall, notifies you when it's not working properly, and provides an expert response to latest security threats.

SAVE MONEY
Lowers your management and maintenance costs. Pay only a predictable monthly management fee.

NEXT GENERATION FIREWALL (NGFW)

REPORTING

Instantly available firewall and security detailed reports that IT staff does not have time to collect, manage, or maintain.

- Managed Firewall
- Intrusion Prevention System [IPS]
- Application Control
- VPN
- MPLS
- Advanced Threat Protection

Extensions:
- Web Filtering
- Anti-Malware
- Antivirus/Antispyware

- Web Application Protection

TECH SUPPORT

All managed firewall services include free consultations with Volico technical and security experts.

ONE DASHBOARD FOR ALL YOUR NETWORK SECURITY

IMPROVE PRODUCTIVITY

Free up your IT staff from daily security tasks by letting Volico manage your security infra-structure.

THREAT MANAGEMENT

Security experts who manage network security and technology including software updates, patch implementations, and firewall defense testing.

Control all the security and networking capabilities in all your next generation firewall (NGFW) platforms across your entire network with one intuitive dashboard. Improve your protection and visibility while reducing operating expenses and saving time with a truly consolidated enterprise next gen firewall platform.

Are you ready to take your security to the next level? Our Security Experts are here to help.

About Volico Data Centers

Founded in 2000, Volico is a HIPAA, SSAE, SOC, and NIST Compliant Enterprise-Class Data Center solutions provider, specializing in colocation, enterprise dedicated server hosting, disaster recovery, business continuity, backup services, private cloud computing, public cloud computing, and CinC (Cloud in Cloud) IAAS computing. Volico's facilities are category 5 hurricane resistant complete with gas-based inert fire suppression, 2N+X Smart-Grid redundant power infrastructure, and a 2N+X Smart-Grid redundant cooling infrastructure. Architected and engineered from the ground up with reliability and survivability in mind, Volico's 3rd Generation Data Center facilities utilize Smart-Grid infrastructure to maximize dependability and scalability of the facilities without sacrifices. The company currently operates multiple data centers servicing clients in Miami-Dade County, Broward County, and West-Palm Beach Counties of sunny South Florida.
