How To: FortiClient 7 VPN Installation and Usage

TO INSTALL THE FORTICLIENT VPN APPLICATION:

- 1. In your browser, navigate to https://www.fortinet.com/support/product-downloads
- 2. Select the "FortiClient VPN only" option.

	Click to See Larger Image		

- 3. Download the FortiClient for your platform.
- 4. Run the installer with defaults.
- 5. Launch FortiClient.

TO CONNECT TO YOUR VPN:

1. Press the menu button to the right of the "VPN Name" field and select "Add a new connection"

2. Add a name for your connection and put your firewall's public IP into the "Remote Gateway" field and then save. If you are provided with a custom port, you will need to select that option too.

	nection			
VPN	SSL-VPN IPsec VPN XML	7		
Connection Name	Example			
Description	[1		
Remote Gateway	xxxx			
nemote outerray	Add Remote Gateway			
	Customize port 443			
	Enable Single Sign On (SSO) for VPN Tunnel			
Client Certificate	None			
Authentication	Prompt on login			
	Enable Dual-stack IPv4/IPv6 address			
	Caract			
	Cancel Save			

3. Now you can select the VPN you would like to connect to, input your credentials, and connect. While connecting, you may be prompted regarding a certificate. If this is the case, select "Yes" to continue.
